### **Clarifying Statement**

---

Uran Limited (ASX:URA) wishes to clarify certain statements regarding the Grants Ridge Joint Venture.

The area of the Grants Ridge Joint Venture has been quoted incorrectly in two public statements issued by the company. The area of the initial joint venture was correctly quoted as 1,724 hectares in all the Company's public statements prior to late July.

Following the acquisition of further ground at the Armijo Project, due to a clerical error the total project area was incorrectly quoted as 22,770 hectares instead of 2,270 hectares. This error only appears in the June Quarterly Report and the presentation to the Australian Uranium Conference in July 2009. All other public statements, including the Prospectus dated 2 June 2009, are correct.

All other aspects of the joint venture including the sample results and prospectivity are unaffected.

Kate Hobbs  
Managing Director
